

United States of America
Department of Transportation Federal Aviation Administration
Supplemental Type Certificate

Number SA180NW

This certificate, issued to AEROAMERICA, INC.

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 4b of the Civil Air Regulations, dated December 1953 (See Type Certificate Data Sheet 4A28)

Original Product — Type Certificate Number: 4A28
Make: Boeing
Model: 720

Description of Type Design Change: Installation of 149 passenger configuration in accordance with FAA sealed Aeroamerica, Inc. Drawing No. 5003. The provisions of Boeing Service Bulletin 2045 must be installed.

Limitations and Conditions: The approval of this change in type design applies basically to the above model aircraft only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this certificate shall be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: February 21, 1975

Date reissued:

Date of issuance: May 7, 1975

Date amended: April 16, 1976

By direction of the Administrator
Charles C. Schneider
